CLÍNICA UNIVERSIDAD DE NAVARRA

The [Clínica Universidad de Navarra](#) is a high-resolution hospital characterised by its diagnostic speed owing to its multidisciplinary work and the acquisition of the latest technology to offer care in 46 different medical and surgical specialties.

The Clinic, for the six time in a row, has been named the private hospital with the best reputation in Spain, according to the MRS's ranking, and is listed among the top 50 hospitals worldwide being the first Spanish private medical centre within this ranking, according to world-famous Newsweek magazine.

- * Its 35 medical departments and 10 multidisciplinary specialised areas make it [the No. 1 private hospital](#) in Spain for 12 medical specialties, accredited by the Joint Commission International since 2004.
- * [State-of-the-art screening programmes](#) as an effective tool for the early detection of diseases at their earliest stage, i.e. when they are most easily treatable and curable.
- * Among these check-ups, it offers complete medical check-ups, health check-ups with [genome sequencing](#) or [ICAP](#) cardiovascular check-ups.
- * [The Department of Plastic, Reconstructive and Aesthetic Surgery](#) develops various fields of increased specialisation, including breast reconstruction using microsurgical techniques, post-oncological reconstruction, reconstruction of facial paralysis and aesthetic surgery.

MEDICAL SPECIALITIES

- ✓ Proton therapy unit
- ✓ External radiotherapy (HIFU)
- ✓ Radiation oncology
- ✓ Cardiology
- ✓ Haematology and Haemotherapy
- ✓ General and digestive surgery
- ✓ Neurology

MEDICAL CHECKS-UP (Clínica Universidad de Navarra)

A medical check-up is a comprehensive and individualised examination of the state of health. It is an effective tool for the early detection of diseases at their earliest stage, i.e. when they are most easily treatable and curable.

Early diagnosis of diseases is the best method for a longer and healthier life.

Within 24 hours we carry out a comprehensive examination to fully assess your state of health.

In addition, we carry out a personalised analysis of each patient's lifestyle habits in order to detect possible unhealthy behaviours and prevent illnesses.

COMPLETE MEDICAL CHECK-UP

Comprehensive and individualised examination of the state of health

Targets

1. Diagnosis and treatment of the patient's symptoms.
2. Early detection of diseases
3. Assessment and treatment of risk factors that may lead to the development of diseases.

Target group:

- People who do not have symptoms, but want to know their health status and possible risk factors.
- People who have symptoms, regardless of whether they are receiving treatment or not, and who want to assess the impact of their disease on other organs or systems and prevent future pathologies.

Main diseases detected (test results within 48 hours)

- | | |
|--------------------------|------------------------|
| ✓ Obesity / hypertension | ✓ Diabetes type 2 |
| ✓ Cancer | ✓ Colon diverticulosis |
| ✓ Epoc | ✓ Anxiety |
| ✓ Lipid disorders | ✓ Hiatus hernia |
| ✓ Arthrosis | ✓ Colon polyps |

All those complementary tests that arise according to medical criteria from the consultation with the internal medicine specialist for the definitive completion of the complete medical check-up will be invoiced according to the official rates.

TRAVEL DETAILS:

- ✓ Results in 24/48 hours
- ✓ Length of stay in Navarra: 2-4 days
- ✓ No need for rest
- ✓ Annual check-up or according to medical recommendations

* All prices are subject to possible annual variations.

HEALTH SCREENING GENOMIC SCREENING

A giant step forward in precision: from preventive to predictive medicine with greater precision by combining medical screening and genetic analysis.

With the Genomic Checkup you will be able to know how your health is now and information on more than 650 diseases of genetic origin:

- / Cardiovascular Diseases
- / Cancer Susceptibility
- / Neurological Disorders
- / Coagulation Disorders
- / Endocrine and Metabolic Disorders
- / Immune System Disorders
- / Information on more than 225 diseases that you can carry and potentially pass on to your children.

Intended for?

Any healthy patient proactive in the care of their health, people who have NO symptoms but wish to know their health status and possible risk factors, who want to detect problems as early as possible in order to start treating them as soon as possible or take preventive measures.

GENOMIC SCREENING

Precio (€)

Test genético + chequeo de salud
+ valoración + pautas + seguimiento

3.500 €

- A blood sample allows us to sequence your genome
- Whole-body CT scan, a full blood screening and an appointment with a specialist in internal medicine.

Incluye:

- Analysis of 566 genes with information on more than 650 diseases of genetic origin
- More comprehensive analysis of cardiovascular diseases and cancer risk.
- Information on 15 multifactorial diseases.
- Information on more than 225 diseases that you can carry and potentially pass on to your children.
- How your body reacts to more than 300 drugs based on your genetics
- More than 50 genetic traits related to diet, athleticism, longevity, nutrition, behavior, cardiovascular health, metabolism and immune system.
- Encryption, anonymization and high security storage of your genetic information.
- Information about your ancestors.

The genome sequencing results will become available after 15 weeks. With all the results and the full report, our professionals will advise you on recommendations to follow.

TRATAMIENTOS FACIALES EN LA CLÍNICA

The Department of Plastic, Reconstructive and Aesthetic Surgery has extensive experience in plastic surgery, both aesthetic and reconstructive. We are experts in microsurgical repair of blood vessels and nerves.

We have the latest technology and powerful microscopes that allow complete treatments with quality assurance and total security in any type of solution you need.

With a team of highly trained and experienced professionals, we perform these aesthetic techniques without the need for surgery with the guarantee and security of being the most reputable private hospital in Spain.

FACIAL AESTHETICS WITHOUT SURGERY:

FACIAL AESTHETICS WITH SURGERY:

FRACTIONATED CO2 LASER

1.200 €/Sesión

Treatment:

This procedure is performed with thousands of micro-impacts to achieve a polishing effect, avoids the wounds caused by the CO2 laser without being fractionated.

It is a more precise and quicker procedure: it is done with local anesthesia in two sessions of about 20 minutes and with a time of between one and two months between each one of them.

TRAVEL DETAILS:

- ✓ Time required for testing: 2/4 hours
- ✓ Length of stay in Navarra 1 day
- ✓ No need for rest
- ✓ Check-up 7/10 days before

BLEFAROPLASTIA

3.100 €

Treatment:

Aesthetic blepharoplasty aims to remove fat and excess skin and muscle from the upper and lower eyelids, in order to correct the effects of facial aging.

Among these effects are the sagging of the skin of the upper eyelids, as well as the presence of bags in the lower and inside of the upper eyelids.

The intervention achieves a result aesthetically favorable and durable, since, usually, the bags of the eyelids do not reappear.

TRAVEL DETAILS:

- ✓ Time required for testing:: 6/12 hours
- ✓ Length of stay in Navarra: 2 days
- ✓ No need for rest
- ✓ Check-up 7/10 days before

* All prices are subject to possible annual variations.

- Facial Resurfacing
- Rhinoplasty

RESTORATIVE MICROSURGERY

- Reconstruction with microsurgical flaps
- Nerve microsurgery
- Reimplants
- Treatment of lymphedema

BREAST RECONSTRUCTION

7.000/7.200 €

Treatment:

After several pregnancies, back problems or an essential part of treating a patient with breast cancer.

The goal is to achieve an improved physical appearance, as close as possible to the previous situation, which helps the patient improve her self-esteem.

TRAVEL DETAILS:

- ✓ Time required for testing: 48 horas
- ✓ Length of stay in Navarra: 3 días
- ✓ No need for rest
- ✓ Check-up 7/10 days before

ABDOMINOPLASTY

8.200/8.700 €

Treatment:

It is especially useful for women who have had several pregnancies, after which the skin and abdominal muscles have relaxed and have not recovered their initial tone. It can also improve the appearance and elasticity of the skin in patients with moderate obesity.

TRAVEL DETAILS:

- ✓ Time required for testing: 72 horas
- ✓ Length of stay in Navarra: 15/20 días
- ✓ No need for rest
- ✓ Check-up 1-3-6 months

* All prices are subject to possible annual variations.

Rehabilitación Hiperbárica

Rehabilitación hiperbárica a tu alcance.
Centro avalado por la Sociedad Española
de Medicina Hiperbárica (SEMH).

HYPERBARIC REHABILITATION CENTER

Edificio Policlínica Artica, in its innovative orientation, creates Oxien, a hyperbaric rehabilitation center. The first center in Navarra in being endorsed by the Spanish Society of Hyperbaric Medicine (SEMH).

Hyperbaric medicine is a medical specialty that treats the physiological and pathophysiological changes of the human being, subjecting them to pressures higher than atmospheric with medicinal oxygen.

This innovative therapy is complementary to the usual treatment that the patient has. Therefore, the hyperbaric doctor will be constant communication with the doctor who treats the patient for the evaluation and follow-up of the same.

Oxien has now become a reference center in Hyperbaric Medicine as well as in Physiotherapy and Osteopathy.

FOR WHAT?

- ✓ Contribution of higher O₂ to injured tissues
- ✓ Activation of blood vessel formation
- ✓ Reduction of edema
- ✓ Bactericide and Bacteriostatic
- ✓ Cicatrization
- ✓ Tissue preservation
- ✓ New Bone Formation
- ✓ Decreased half-life of toxic substances
- ✓ Chronic pain management

FOR WHOM?

- ✓ Neurological Patients
- ✓ Fibromyalgia and Chronic Fatigue Syndrome
- ✓ Peripheral Vascular Disease
- ✓ Sports Medicine
- ✓ Dentistry

- Vichy shower peeling, removes dead cells from the skin surface layer.
- Finnish dry sauna at 75-90°C, ideal for sweating and eliminating toxins, oxygenates the most distal parts of our extremities and has an analgesic effect by analgesic effect by slowing down the speed of nerve impulses.
- Three seasons shower and ice fountain, achieves a toning and firming effect on the toning and firming effect on the skin tissue, reducing the level of stress and activating the veno-lymphatic return circulation in the extremities.
- Thermal bubble bath, relaxing effect of the mineral-medicinal water from our spring, activates circulation and stimulates the immune system.
- Resting session in heated stone armchairs.

COMPLEMENTARY TECHNIQUES

HALOTHERAPY

Is a natural therapy that consists in reproducing atmospheric salt concentrations found in salt mines in order to soothe certain diseases such as:

- Respiratory system: asthma, bronchitis, cystic fibrosis, sinusitis, seasonal allergy.
- Dermatological diseases: atopic dermatitis, psoriasis or eczema.
- Anxiety, stress or physical or mental wornout.
- Sport: Muscle tiredness: it increases muscle performance, boosts oxygenation.
- Very beneficial for skin care and beauty.

PARAFANGO MUD TREATMENT

Application of a mixture of paraffin (para) and mud (fango) containing salts from the thermal water, to specific body areas, It has a thermo-therapeutic effect, transferring a large amount of heat to the deep structures of the body, through local applications to the joints.

It is primarily indicated for arthrosis, recovery from post surgical procedures and for muscle contracture.

Navarra embraces you with its **exuberant nature**, from the lush green forests of the Selva de Irati or the Sierra de Urbasa to the overwhelming desert of the Bardenas Reales. Navarra is its legacy of **art and culture**, with its Castle of Olite, its Camino de Santiago its **gastronomy**, with an exquisite traditional cuisine. its people..., Navarra is **motor tourism** and **medical tourism**.

Navarra is synonymous with **health and wellness tourism** and We've got everything ready to welcome you with a clear goal: to give you the best R&R time.

Navarre is one of the destinations with **the best quality of life indicators**; and this is no mere chance. The excellent choice of hotels, and rich and healthy cuisine, are just two good reasons for choosing Navarre as the perfect place to care for you

Exceptional places to pamper yourself - **spas and spa hotels** - doing **trail walking** and other activities in which the common denominator is **peace and quiet**, while stress is a non-existent word here.

Because **nature** is synonymous with **wellness**.

Walks in nature in which peace and tranquillity accompany you every step of the way. And pure fresh air that fills your lungs with oxygen and health.

GOVERNMENT OF NAVARRE TOURIST INFORMATION

WEB: <https://www.visitnavarra.es/es/>

MAIL: turismo@navarra.es

PAMPLONA the capital of Navarre is now a modern and welcoming city with a lot to offer: walking between ancient walls and cobbled streets; relaxing in parks and terraces; sampling the delicious pinchos and the lively Old Quarter; visiting historic monuments; shopping; first-rate shows; and watching traditional sports such as pelota.

Its **central geographical location** also makes it the perfect base from which to explore the main tourist sites in the region.

PAMPLONA cooks all the flavours of Navarre, from the excellent vegetables from the fertile plots of the Ebro, to hearty Mountain stews, as well as **typical products from the Pamplona Basin** such as roast lamb, relleno and chistorra, a local variety of fresh sausage.

Its **restaurants have options** to suit all tastes and budgets – even Michelin stars – and the most typical dishes are easily available.

A visit to the city is not complete without a trip to the old part of town to try its pinchos: genuine delights of **haut-cuisine in miniature**.
